The Assembly Committee on Public Morals has reported favorably upon the bill to permit cittes and towns to license gambling. How any Committee on Morals could possibly justify such action, passes ordinary comprehension. Here is a committee that is presumed to be chosen to aid legislation to encourage morality, yet confesses that it is the right thing to do to permit city governments to draw revenue from the gaming table. The people of cities, the committee forgets, are not alone concerned, but those of rural parts also. All the people have an interest in the moral conduct of any community in the State and have a right to be protected from the demoralizing and debasing influence of gambling hells. If the recommendation of the committee should be translated into law, this Legislature will go down in history, not only as the Legislature of a thousand attaches, but as the "gamblers' own." That the names of the distinguished gentlemen who have added fame to well-spent lives by this brilliant achievement may be handed down to admiring posterity, we subjoin the roster of the Assembly. Committee on Public Morals (?)—Hon. R. J. Curry, Hon. L. S. Taylor, Hon, M. D. Hyde, Hon. J. M. Brooks, and Hon. Samuel Rucker.

This same committee, by the way, has the virtue of consistency, for, while it reported against the bill to prevent telephone and messenger-service corporations and employers sending lads to houses of prostitution and other sinks of iniquity, and to prohibit such companies from hirring their messenger boys out to serve the people of the slums, and do messenger duty in quarters where no father or mother, respecting their parenthood and loving their progeny, would ever consent to have them sent.

Assemblyman Seymour Carr, of Sacramento, deserves the thanks of the people for having By Vrooman—Providing for the compilation and publication of certain State school textand publication of certain State school textbooks.

By White—Amending the Code of Civil Procedure relating to suits for damage resulting from death, casualty, etc.

By White—To establish and regulate Police Courts in incorporated cities having over 10,000 inhabitants.

By White—To amend the County Government Act, relating to the fees of Justices of the Peace and constables in counties of the fifth class.

By Boggs—To provide for a deficiency in the appropriation for the restoration and preservation of fishes in the waters of the State.

especing their parenthood and loving their progeny, would ever consent to have them sent.

Assemblyman Seymour Carr, of Sacramento, deserves the thanks of the people for having introduced the necessary bill to more clearly define lottery advertising, and to provide for the enforcement of the Constitution and the laws regarding sale of lottery tickets by means of advertising. The law has been and is being shamefully disregarded by leading journals of the State, and as a result the open sale of lottery tickets is carried on upon the streets. The bill of Mr. Carr defines lottery advertising to be any kind of publishing of the schemes of lotteries in advance, or any publication of accounts of drawings of lotteries, whether in advertising columns or as reading matter, in any paper, book or pamphlet. The bill ought to pass, and how it can be objected to in the face of the direction of the Constitution to the Legislature, it is difficult to understand. The author of this just and needed bill should be solicitous to see that the Assembly Committee on Public Morals does not get in its work on his admirable measure—should it do so, sudden death would be the unavoidable verdict.

There is talk that an extra session of the Legislature is to be called the called the selection of the constitution of the legislature is to be active to see that the Assembly Committee on the legislature is to be active to see the called the BILLS READ A THIED TIME AND PASSED.

State Mining Bureau and that authorizing persons having claims against the State to sue for the same in Court. Both were passed to engrossment. The appropriation for the Mining Bureau was reduced from \$100,000 to \$30,000, and in the case of the other bill it was so amended as to permit suits to be brought on claims of not more than ten years' standing. This, it is understood, will cover some of the unpaid claims accruing under the Drainage olsom on Thursday.

THAT LIBEL BILL.

A. B. 198, relating to damages, which was the subject of interesting discussion on Tuesday, was resumed. Renison made a very strong argument against its passage, and in the course of his remarks criticised severely the language made use of by Mr. Sims on the preceding day, claiming that it reflected on the honor and integrity of the opponents of the measure.

Mr. Sims defended the measure, and also claimed that Mr Renison had misunderstood the language he used. e language he used. The p evious question was moved and the bil st by a vote of 19 ayes to 52 noes. *PECIAL ORDERS.

Henry of Butte, the author of the bill, who desires to have the school located at Chico, fought the amendment, because Chico, being sourh of the prescribed line, would be proscribed. He became very much excited in the debate, and almost personal in his remarks towards Mr. Shanahan, the Assemblyman from Shasta. He said the population of Shasta, according to the last census reports, was about \$,000, 1,100 of whom were Indians and half-breeds. Speaking of the white population, he said 2,000 of them were old bachelors, one-half of whom were married to Indians.

Shanahan, in reply, stated that the member from Butte was reading from the ceneus of 1880. During the past seven years the county had prospered, its white population was to-day over 17,000, and she is receiving an immigration larger than all the counties of the northern portion of the State combined. They were honest, intellig, in tand industrious, and ere many years Shasta would be to the northern section what Los Angeles is to the southern. The gentleman from Butte, he said, evidently was a little mixed when he said 1,000 "bachelors were married to Indians."

Henry of Butte arose and retorted: "If the

Henry of Butte arose and retorted: "If the gentleman from Shasta wishes me to be plain, I will say that the large number of men I refer to live with squaws."

Mr Shanahan retorted: "Again is the gentleman from Butte in error; the only 'rancherie' of that character of any considerable size is that at Chico, in Butte county. They are his constituents, not mine."

Dr. Robert Newton, late President of the Eclectic College, of the city of New York, and formerly of Cincinnati, used Dr. Wm. There is talk that an extra session of the Legislature is to be called immediately after the close of the present session. Those who are speculating in this direction could not have read the Governor's inaugural message, in which he distinctly expresses his intentions against regaling the people with these expensive luxuries, of they think his experience with the present legislative gathering has led him to change his mind and to desire to make the law making body a continuing blessing.

SOME OBJECTIONS TO THE HYDRAULIC if such works gave way, it is improbable

The Courts of the land, State and Federal, have held the usual methods employed in hydraulic mining to be unlawful, and have granted injunctions to prevent their employment. The Federal departments and Congress have decreed that the work of restoring the navigable streams shall not be entered upon until there is cessation of these methods, and the Federal Legislature has directed that the Secretary of War proceed in the Courts to enjoin hydraulic miners from washing debris into the streams. If any comprehensive and safe method could possibly be the dams would constitute an ever-present devised by which such mining could be prevented without injury or menace to and to the navigable streams. agricultural interests and valley homes, drainage and the great navigable streams, no one in the valley would be found to object. Substitute for Senate bill 51 treats of this ing dams for mining debris, by approprias interfering with and handicapping the and irrigation system which this State must soon adopt for the control of waters for the highest good of the people. COUNTY OF COLUSA. SS.

WE, THE UNDERSIGNED, BEING DULY sworn, depose and say that we are residents and Taxpayers of the Northern portion of Colusa county, California, residing at the town of Germantown and immediate vicinity.

That we are informed that Representative T. J. Hart, in the Assembly Chamber, at Sacramento, on February 8, 1887, stated that the people of Germantown knew before election that he, the said T. J. Hart, was in favor of the division of Colusa county, and that he so announced himself to them.

Thet we, the affiants, do depose and say, that said T. J. Hart never, at any time during the canvass for the same, announced himself to the people of Germantown or vicinity as being in favor of a division of Colusa county; and, further, we do depose and say, that said T. J. Hart did not refer in a single sentence to a division of Colusa county, during his one, and only one, campaign speech which he made at Germantown, and that the division was not an issue at the last election. DR. JOHN BULL'S FEVER AND AGUE.

Or CHILLS and FEVER.

AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPREDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. Use no other. Prisoners En Route.

It will be recollected by many readers of the Record-Union that last summer an old couple named Clevinger, who, accompanied by their adopted daughter, Jessie, a girl of 16 years, were en route for Washington Territory with a band of cattle and their household goods, intending to make their home there, were murdered near Fort Thomas, Arizona, by John Johnson (colored) and Frank Wilson, two men who had been hired to assist them on the iour. had been hired to assist them on the journey. It was generally supposed that the old couple had with them nearly \$10,000, and the rascals killed them in the hope of obtaining the money. Ayer's Cherry Pectoral is a highly concentrated and powerful medicine. It is an anodyne expectorant, and, if promptly taken, in cases of Coughs, Throat or Lung troubles, soothes and heals the irritated tissues, and quickly allays all tendency to Consumption. .

Six years ago, I contracted a severe Cold, which settled on my Lungs, and soon developed all the alarming symp-toms of Consumption. I had a Cough, Night Sweats, Bleeding Lungs, Pain in Night Sweats, Bleeding Lungs, Pain in my Chest and Sides, and was so completely prostrated, as to be confined to my bed most of the time. After trying various prescriptions, without benefit, my physician finally determined to give me Aver's Cherry Pectoral. I took it, and the effect was magical. I seemed to rally from the first dose of this medicine and after using only three bottles. icine, and, after using only three bottles, am now as well and sound as ever. —

Next Monday---Valentine Day.

Next Monday is St. Valentine's Day.

Our stock of Valentine's this year comes from an Eastern manufacturer, and a conspicuous feature of the collection is the almost entire absence of the old style embossed chromo pictures.

Instead are heavy rough-finished and rough-edged papers, with hand lettering in gilt; also, landscapes and floral designs sketched in water colors.

A majority of the Valentines are mounted as easels, plaques or banners, and can be used as home decorations, thus eventually serving a useful as well as a sentimental end.

In the fine novelties are half-moon shapes, with tropical scenes, 85 cents to \$1 25. "Romeo's Ladder," an original conceit, in silk and plush, at \$1 50. "The Frog that Went a Wooing"-a handsome thing, with a humorous design-and many other kindred novelties.

In inexpensive Valentines we have small bannerets in octagon, oval and oblong shapes, gilt edge and wide silk fringe, silk cords to suspend them by, 5 cents each.

For the little folks who wish to send Valentines, we show the old style, Stamped Lace Valentines, at two for 1 cent, 1 cent, 2 cents up to 10 cents.

With these he effected in possessed of certain valuable remedial agents. With these he effected in Sacramento and Central California remarkable cures, and drew the approving attention of many physicians. So wide-spread became the fame of his remedies, that business men were convinced of their entire reliability, and of the truth of the marvels they accomplished. The result has been the formation of a Company to aid him in putting these needs for suffering humanity broadly upon sale. The Company has its Depot at No. 115 EDDY STREET, SAN FRANCISCO, but the medicines can be had of all reputable druggists.

The making of Certificates has related so largely to fraud, that the public has naturally grown suspicious of them. But those here referred to are by such prominent citizens, of such irreproachable character, and the cures are so well known, and the witnesses so easy to reach, that we make the references without any hesitation:

THE LABOR TROUBLES. River Fronts Assuming Their Norma

Appearing-Freight Movement. NEW YORK, February 9th .- Except for he number of 'longshoremen standing idle on the corners of the streets, the river fronts have assumed almost their normal appearance, though it requires a larger number of men to do the work than formerly. Steamboat and railroad pier managers all claim that the business is as good as before the strike, and that freight is being moved with the utmost facility. The steamers now leave on the advertised time, and the jam of freight on the railroad piers no longer exists.

THE STRIKE OF COAL MINERS SETTLED. PITTSBURG, February 9th .- The strike of 000 Monongahela river coal miners is ractically settled, and work will be remed in nearly all the mines in the first, second and third pools to-morrow, at the rate decided upon by the Miners' National Executive Board. Meetings were held in various pits last night, and it was resolved to accept the compromise suggested by the National Board. It is expected that all the mines will be in operation next Monday. CONFERENCE OF THE READING MANAGERS AND THEIR EMPLOYES.

PHILADELPHIA, February 9th.-Another nference of the Reading managers and their employes was held yesterday after-noon. At its conclusion it was announced that an agreement had been reached, and there would be no strike. All the parties plating the purchase of a home is particuunderstood that the men presented grievances concerning the men along the coal wharves at Elizabethport who went out against a reduction of pay. A reinstatement of the men and some others at the old rate of wages was demanded, it is said, and upon this question an agreement was reached and signed. This agreement is only to apply, however, where the former employes of the Reading, as distinguished and consumers. It cheapens all that he buys from the New Jersey road, are concerned and cabances the price of all he produces. The

A resolution was introduced setting forth that General Hatch, of Missouri, was or appointment as Secretary of Agriculture | bition 11 ention that such an action will be prema ure. The resolution was withdrawn. By another resolution the Association pledged itself to co-operate with the National Pure Food Association in securing the passage of the food adulteration bill at present before Congress.

Conference Between Pacific Mail and Panama Railroad Officials. NEW YORK, February 9th .- There was onference between the Pacific Mail and Panama Railroad officials to-day, but after a short session it was adjourned until to morrow. It is stated by the principa holders of Panama stock that the compro mise is on the basis of the amended con-tracts submitted last summer by the Pacific Mail, and only waits its acceptance by De Lesseps, which is expected to be received by cable. It is considered very favorably by the Pacific Mail. The Pacific Mail is to ive to the Panama Railroad \$150,000 in ettlement of the latter's claim of \$500,000,

and monthly payments hereafter at the rate of \$55,000, instead of \$70,000. Warring Journalists. NEW YORK, February 9th .- The Tribur says: Joseph Howard, Jr., one of the best-known journalists in the country, and Joseph Pulitzer, chief editor and proprietor of the World, had a quarrel in the editorial rooms of the World yesterday afternoon, which led to blows and which will result 818 and 82c K st., bet. Senator Stanford Interviews the President Washington, February 9th .- Senator Stanford returned to Washington from New York last night, and called upon the President this morning. He told Cleveland that he desired to be heard in relation to the appointment of the members of the Interstate Commerce Commission, before action had been decided upon. Cleveland told Stanford that he would be given an opportunity to express his views upon this subject before the nominations were made. In his interview with Stanford the President gave no indication of his purpose to appoint any member of the Commis sion from the Pacific coast. His idea is to select men who will administer the law according to the intention of Con not meet with approval. The adoption of the address was promptly moved with great promptness, was carried, and a com-tree law according to the intention of Con-gress, with special reference to localities from which the Commissioners are chosen. The President desires to select men whose from which the Commissioners are chosen. The President desires to select men whose names will be a guarantee to the people of his intention to erforce the law in the spirit which it was enacted. Senator Stan-ford will recommend the appointment of Commissioners whom he believes will do ustice to the interest of both corporations and people. If the Pacific coast gets one of the Commissioners, it is now quite certain that the man will be a Republican, as three of the Commissioners to be appointed under the law will be Eastern Democrats.

Office-Seeking from the Coast. Washington, February 9th.—Jesse D. Carr arrived in this city yesterday. It is he unanimous choice of the Association reported here that Mr. Carr has some amand Labor. This provoked some discus-sion, and it was the sentiment of the Con-place on the Interstate Commerce Comnow, and that he would be glad to take a nission, if one of the positions should be allotted the Pacific coast. The conviction is growing that if the coast is given one of these places the plum will fall into Republican hands. Political considerations make it probable that the Democrats will capture hree members of the Commission, least, from States east of the Mississipp river, and one Commissioner, if anything is given to the Pacific coast, will, it is

argued, go to the Republicans. Patents to Californians. The Italians in Abyssinia. Rome, February 9th.—The Government has received a dispatch from the Italian commander at Massowah, saying that Ras-ahula was retreating, but that it was not known whether he desired to await rein-forcements, or whether, owing to his losses, he had decided to refrain from attacking Massowah. The commander further says that Major Piano has brought letters from King John and Rasahula, offering to renew peaceful relations, on condition that the Italians do not extend their territory beyond Massowah, and authorizing Major Piano to negotiate terms of peace. The commander replied evasively, with the object of recovering the Italian prisoners.

TREMENDOUS SENSATION.

ATTEMPT ON THE LIFE OF ADE-

LINA PATTI.

An Infernal Machine Exploded During the Performance-The Perpetrator the Only One Hurt.

San Francisco, February 9th. - A dramatic and sensational episode occurred to-night at the Grand Opera House, where Adelina Patti was giving her last concert of the season, and which was also announced as her last appearance in this city. The incident will tend to make her fare well performance here memorable. At 10:20, after Patti had twice appeared in the front of the curtain, in response to a recall

the wing, A TREMENDOUS EXPLOSION Was clearly heard above the vociferous applause, and a cloud of smoke was seen to rise above the railing of the top gallery Instantly every lorgnette in the house was focussed on that portion of the house where the self-possession of the newspaper men present in a box, coupled with that of the diva, that a stampede of the entire house for outdoors was prevented. The newspaper men were in the stage box, and quickly

NO SERIOUS RESULT Had occurred, and that the danger was over. They communicated by nods and motions with Patti, who was still in sight in the flies, to come before the curtain. She comprehended the situation, came forward quickly, and giving the cue to Arditi, began to sing "Home, Sweet Home." This had a calming effect on the audience, and though many left withou waiting to ascertain the cause and effect of the unexpected punctuation to the per formance, the concert was carried on to a conclusion.

THE LOCATION OF THE TROUBLE. Soon as the location of the trouble could be learned, policemen rushed to the scene, and found a man with a badly burned face and hand, moaning with agony, and the remains of an infernal machine about him. He was placed under arrest and conveyed to the Receiving Hospital. where he stated that he had stooped to pick up his hat and cane, and found a package under the seat, which he picked up, and that as he raised it to see what it was, it exploded. Though he was badly ourned about the face and hands, it is be ieved he received no serious injuries. No other person is known to be hurt. He gave his name as Dr. James Hodges, dvspepsia specialist; residence, No. 1 Central Place, aged 71.

STATEMENT BY A LADY.

Others, however, give a different and undoubtedly correct version of the affair. A lady who sat next to him, and narrowly escaped injury, states that during the evening he made a number of significant rewindows of \$5,000 worth of diamonds and marks which pointed clearly to the purrings. They afterward repeated the opera- pose which he later attempted to carry out. distinctly remembered was: "Patti is person; two bottles entirely cured her. Your medicine is invaluable to me. It was, indeed, a messinging excellently to-night, but she will never sing any more." He was also heard to make uncomplimentary and revengeful allusions to J. C. Flood and family, who were present in a box. At the Receiving Hospital, after his wounds were dressed, the Chief of Police attempted to make him commit himself, but was completely unsuccessful. He stoutly maintained his innocence. The Chief of Police pronounces him a crank.

HOW THE BOMB WAS MADE. The bomb was made of a can filled with bowder, in the center of which was a bottle. The can was wrapped in a piece of cloth soaked in inflammable oil, and it is believed that the intention was not only to kill Patti and those near the stage but also to set fire to the building. It was arranged to explode by a number of friction matches, which connected with the fuse inserted in the powder. The neory is that the fuse burned too quick for the crank, and the explosion was prenature. Though Patti performed her part in the evening's programme to the finish, it was not cable that the occurrence had considerable effect upon her, and somewhat subdued her usual vivacity.

MISCELLANEOUS.

Choking Catarrh. Have you awakened from a disturbed sleep with all the horrible sensations of an assassing clutching your throat and pressing the lifebreath from your tightened chest? Have you noticed the languor and debility that succeed the effort to clear your throat and head of this catarrhal matter? What a depressing influence it exerts upon the mind, clouding the memory and filling the head with pains and strange noises! How difficult it is to rid the nasal passages, throat and lungs of this poisonous mucus all can testify who are afflicted with catarrh. How difficult to protect the system against its further progress towards the lungs, liver and kidneys, all physicians will admit. It is a terrible disease, and cries out for relief and cure. The remarkable curative powers, when all other remedies utterly fail, of Sanford's Radical Cure, are attested by thousands who gratefully recommend it to fellow-sufferers. Woman Tortured Nine Years from the Incompetency of Physicians. Relief at

Mrs. T., a lady residing in a country town in Indiana, tells the following paintul s'ory: "I had taken treatment from physicians for about nine years, and had never received any permanent relief until I took your Compound. I thought I never should get well, and cried a good deal of my time. A year ago this sunmer I was confined to my bed and room for five months, under the dector's cure. I at last made up m, mind to quit him and try your Compound, and with what a joyful result! Oh! I feel so glad that I tried it and so sorry that I did not get hold of it nine years ago." The foregoing is from a letter to Mrs. Lydia E. Pinkham, and sufferers by taking her Vegetable Compound may escape the writer's regret for years wasted in hopeless agony.

A Letter of Thanks.

Mrs Lydia E. Pinkham: Very dear Madam: My wife, Arie A. Green, has suffered with a displacer at which caused her unknown pains till I had set given up all hope of finding any relief for her But the Guiding Spirit referred me to your Vegetable Compound. I went twelve miles to purchase a bottle, and the first two doses gave her immediate relief, and after the se of the first bottle she declared herself a ne senger of peace in my house; it cured my wife and, God knows, I am the happiest man alive to day.
